

Mahogany & Knotty Alder Entry Doors Price List

(prices effective July, 2011)

This price list is for the *Mahogany And Knotty Alder Entry Doors* catalog published by GlassCraft Door Company. Discounts for volume purchases are available. Payment for all products may be made by cash, approved check, Mastercard, Visa, American Express or by charging your pre-approved company account. No COD shipments. Freight will be billed as per our Freight Policy on page 6. No returns will be accepted or allowed unless prior authorization is approved. Please inspect any shipment for damage prior to signing the delivery receipt. If damage is found, you should make a notation on the delivery receipt, and file a claim for damage with the delivering freight carrier. GlassCraft Door Company assumes no liability for any damage which may occur during shipping. Any product defects or product quality questions must be reported to GlassCraft within 7 days of receipt of the product.

All prices and product specifications and designs are subject to change without notice.

Please refer to our *Product and Information Guide* for additional ordering, shipping, and detailed product information. This guide is available at www.glasscraft.com.

This price list and all drawings or designs contained herein are © 1982–2011 GlassCraft Door Company, Houston, Texas. Any duplication of any part of this price list without specific written authorization from GlassCraft Door Company is strictly prohibited.

Pricing and discounts

Suggested Retail Prices

Prices listed in this price book are for the products featured in our GlassCraft Door Company *Mahogany and Knotty Alder Entry Doors* catalog. Pricing has been simplified, so that all prices for each specific door profile is the same. For example, all Portobello Mahogany or Estancia Knotty Alder Full Lite doors with decorative glass or with wrought iron are the same price, regardless of the glass or iron design. This simplified pricing extends through the various prehung unit configurations for similar door profiles.

All prices in this price book are our suggested retail list prices. Products are listed in this price book by the page number in the color catalogs on which they appear. Each product price listing includes pricing for the individual door slab, plus pricing for entry configurations which include prehunging. Prices listed do not include any applicable discounts. Charges for prefinishing and other listed options are extra, and will be added to the standard unfinished product cost.

The entryway configuration pricing listed is for standard 6'8" or 8'0" tall doors and include prehunging in either 4-5/8" or 6-5/8" wide jambs. All doors are 1-3/4" thick or 2-1/4" thick, as noted. Refer to page 8 for rough opening dimensions.

ALL PRICES AND ALL PRODUCT SPECIFICATIONS AND DESIGNS ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE.

Industry Discounts

Industry trade discounts may be available. Please contact your sales representative for more specific information on these discount amounts. Current customers may apply their current discount to calculate their costs from these retail list prices.

All prices listed in this price list, including pricing for prehunging, prefinishing, etc. are discountable.

Custom Wood Options and Products - Quotations and Ordering

Custom sized doors, sidelights, transoms, windows, etc. are available. GlassCraft will price and manufacture custom pre-hung units only. Requests for custom products should be faxed or sent by email to us with detailed specification information, using our Custom Order Quotation Form, which may be found on our website at www.glasscraft.com. Any changes may affect quoted price. Refer to our [Information and Product Guide](#) for more information on our custom production capabilities and ordering guidelines. (This [Information and Product Guide](#) is available for download from our web site at www.glasscraft.com)

Product Options and Ordering Guidelines

The entryways and doors shown in these catalogs have options which are included or may be added to the door or entryway. These options include:

- 1. Entryway Configurations** For each of the doors shown in the color catalog, up to 11 entryway configurations are shown which use each specific door. Pricing is listed in this price list for each different configuration, in addition to the individual door or sidelite slab.
- 2. Suggested Rough Opening sizes** Each entryway configuration includes a Suggested Rough Opening size (on page 8). These are tight sizes, closely approximating the actual size of the entryway. Your opening should not be smaller than this size shown. You may wish to add additional space to your rough opening in width and height, and then shim the entryway to the exact opening. Sizes listed are subject to engineering and product design changes and upgrades. Field verification upon receipt of door unit(s) size should be completed prior to installation.
- 3. Wood Species** Doors and sidelites shown in the *Mahogany and Knotty Alder Entry Doors Catalog* are available from stock in either Knotty Alder and/or Mahogany..
- 4. TDL Transom and Sidelight Options** The True Divided Lite (TDL) wood sidelites and transoms in these catalogs are real "divided lite" sidelites and transoms, meaning that each piece of glass is separate from the next piece. All TDL Doors with IG-insulated glass incorporate Low-Emissivity "Low E" glass for energy efficiency.

Entryway Sizes, Options, etc.

5. Prehang Options Prices for the prehung exterior entryways shown in the catalogs and listed in this price list use your choice of a 4-5/8" wide or 6-5/8" wide jamb system. Pricing is the same for both jamb widths....there is no "upcharge" for the wider 6-5/8" frame size.

The entry system is produced with your choice of doors, sidelights, and transoms. Pre-Hung entryway pricing includes the entire entry system in matching alder or mahogany frame parts with a composite adjustable sill and sill cover, and 3 or 4 ball-bearing hinges (depending upon door height). Jamb legs, header, interior casing, exterior sub casing, and exterior brick mold are included, plus any applicable transom, astragal, or mull "boot" components. Price does not include door hardware. Other options include sill color, hinge color, bore options, handing options, etc.

We can ship the entryway "KD" (knocked down), or fully assembled. KD units cost much less to ship. These KD units are fully assembled at the factory, and utilize an easy-to-assemble system. Each KD entryway is packed in a separate shipping box on a separate skid.

Please refer to our [PreHung Unit Order Form](http://gcdoor.com/Downloads.html) on our web site (<http://gcdoor.com/Downloads.html>) for a list of all options available for prehung units. Please email or fax this completed form when ordering a PreHung Unit.

6. Glass Panel Came Metal Channel Color and IG Options Our decorative leaded glass panels used in many of the doors shown in this catalog are available in up to three metal channel (called came) colors...Satin Nickel, Black, or Oil-Rubbed Bronze (ORB). Availability is shown on each catalog page and on each price list page. All glass panel designs in the catalog are produced as an insulated glass unit.

7. Prefinishing Options Please refer to page 7 of this price list and on pages 10 and 11 of the color catalog for information on factory finishing of our door products.

8. Product Testing, Performance, and Approvals The insulated "IG" glass panels have been tested for energy efficiency and have SHG and U-Value test results available. Most of the doors and entryways configurations shown in this price list have been approved for use in wind-storm areas, and have been assigned "DP" ratings. Please visit our web site for more specific information.

9. Clavos Options and Pricing: Many of the Portobello Mahogany Door or Estancia Knotty Alder door profiles can accept the installation of the following clavos or decorative door nails. Pricing is \$11 (retail) per nail, which includes installation. Clavos may be installed on doors with or without v-grooving. Please specify quantity of door nails to be included on the door, and if nails should be on one or both sides of the door. See page 9 of this price list for more information.

10. Speakeasy Options and Pricing: Several of the single and double solid door profiles shown in *Section 1 - Solid Doors* of the catalog may have an optional "Speakeasy" installed into the upper panel. Pricing is \$400 (retail list) per installed speakeasy. Choose from the two speakeasy wrought iron grille designs shown in the catalog: the *Madrid* or the *Florentine*. A solid wood speakeasy is also available. All are the same price. The speakeasy opening includes compression weatherstrip, a clear glass IG unit, and decorative hardware. The "speakeasy" is operational, meaning it does open and close. The three wrought iron colors shown on page 20 of the catalog are available on the speakeasy wrought iron grille. Choose from antique black, antique bronze or antique pewter speakeasy hardware colors.

11. Decorative Straps (Wood or Iron) and Pricing Most of the solid plank door profiles shown in *Section 1 - Solid Doors* of these catalogs may have optional door straps installed. Strap options include two metal straps or wood straps. See page 9 in this price list for pricing information.

12. V Groove Options and Pricing Doors with larger panels are available with v-grooves cut into the panels to simulate a plank door appearance. This very popular option offers a more rustic appearance to the door. The price on this option is \$110 (retail) per door, regardless of size of door or number of panels. Both sides of the door are v-grooved in order to maintain the structural integrity of the wood panels. All panels in all Estancia or Portobello door panel are solid wood - not veneer or "bladder pressed" - to provide a high quality door, and to make this v-groove option available.

13. Lockset Hardware We offer a selection of multipoint and standard lockset hardware installed onto your door. This hardware is shown on page 16 of our door catalog. Please refer to page 10 of this price list for more information.

Shipping Guidelines for wood and fiberglass doors

Doors, Sidelites, and Transoms

Doors with glass are securely packed standing on edge in custom crates and pallets. Orders for single doors will be packed in a 2" X 4" crate. Orders for 2–3 doors will be packed in a 2" X 12" crate. Orders of 4 doors or more will be packed in our unique 6-door box. TDL, solid wood doors and fiberglass slabs may be shipped flat up to 25 high on a horizontal pallet. The door stock number is listed on the edge of the door unit, and the door is placed inside of the appropriate crate type for shipment.

GlassCraft's 6-Door Shipping Box

Ship up to six 3'-6" x 8'-0" door slabs per packaging box or ship a complete KD (Knock Down) Pre-hung door unit in one easy to ship package. Ship it once and ship it right.

- Faster to unpack than traditional crating
- More protection than traditional crating means less shipping damage
- Easier to inspect product for shipping damage
- More product per square foot means less cost to ship
- Easy to recycle packaging using less wood than traditional crating

6-Door shipping box and pallet

Prehung Entry Systems

Shipment and assembly configurations for these units are available in 3 options:

- 1) Assembled for customer pickup at our factory
- 2) Pre machined—K-D or knocked down, and crated for shipment. These entries have been completely assembled, and are then disassembled and crated for shipment and reassembly at your location.
- 3) Assembled and crated for shipment. Unit may not be fully assembled, depending upon size and configuration. Brick moulding and casing is not mounted.

We have found that our customers get the best product and the best results when we ship a prehung unit door and frame together in the same shipment. If you require the door frame earlier than the door, we suggest that you order the appropriate door frame jamb kit, and assemble the frame yourself on the job-site. If we ship the frame separately from the door, we cannot guarantee the alignment of the door to the frame, or the alignment of the hardware.

Receiving Your Shipment

Please inspect any shipment for damage prior to signing the delivery receipt. If damage is found, you should make a notation on the delivery receipt, and file a claim for damage with the delivering freight carrier, or notify GlassCraft if delivered on a company truck. **GlassCraft Door Company assumes no liability for any damage which may occur during shipping.**

If there is no visible damage to the shipment, we suggest that you note on your delivery receipt/bill of lading not checked for concealed damage at the time of delivery.

Shipment Error or Shortage

If you receive a shipment and there is a shortage, an error, or a defective product, download a copy of our RMA form and email it to our Customer Service Department within 7 days of your receipt of the order, so that we can resolve the problem quickly and completely.

Custom Crating Charges

GlassCraft does not add crating charge for standard size door and entryway units. Units that are larger than our standard sizes will require a customized crate. A crating charge for these larger units will be applied at the time of invoice.

Warranty

All products are covered by individual warranties: Visit www.glasscraft.com for complete warranty details before using, installing or finishing any GlassCraft product.

Ordering Guidelines

Minimum Order Requirements

The minimum order is \$150 net. In the event an order does not meet this minimum amount, we may add a \$25 processing charge to the order.

New Customer Accounts

An application for credit may be found on our web site at www.glasscraft.com for download.

Pricing Information

Color product catalogs have a supporting price list booklet or the pricing is included in the product catalog. All products are sold as priced in our published price books and lists, and all prices and product specifications are subject to change without prior notice. All prices are FOB Houston Texas, unless specific order volume amounts are reached. See pages 5–6 for more shipping information.

Payment for Products

- 1) Open Charge Account: If your company has an established open account, we will ship and charge the product to your account. Payment is due within 30 days from the date of shipment from our company. Past-due accounts will not be allowed to have additional shipments charged to their account.
- 2) Pre-Paid Accounts: cash-in-advance, check, MasterCard®, Visa®, American Express®, Discover®. All of these are accepted in payment for products. A 50% deposit may be required for custom, pre-hang, prefinished, and other non-stock orders.

Order Cancellation Policy

Our order cancellation policy applies to custom orders, prehung orders, and/or prefinished orders only. Order cancellations are not allowed for these orders, unless the order is cancelled prior to the commencement of production.

Ordering Guidelines

The following includes a few tips which may be of assistance when taking an order for our doors, and when placing an order:

- What door product series are you ordering.....wood, steel, or fiberglass?
- Glass panels are available in up to three different insulated glass metal came color options: 1) Satin Nickel,)2 Oil Rubbed Bronze, or 3) Antique Black. Be sure to specify which type of panel assembly is required. Not all panels are available in all options—some designs offer only one color option.
- When ordering doors, you will need to know the width and height of the door required.
- When ordering sidelites, do you want: 1) 12" or 14" widths, and 2) 6'7", 6'9" or 8'1" height?
- When ordering transoms, be sure to tell us what the door and sidelite configuration will be below the transom, so that you will receive the correct transom width.
- When ordering doors for a double door installation: 1) let us know at the time you order, so that we can hand-pick the doors for color and grain match, and 2) be sure to order a T-astragal. **Color match is not guaranteed.**
- When ordering any product that is prefinished, you should inform us at the time you place the order.

Return Policy

No returns will be accepted or allowed unless prior authorization is approved. To receive a Return Authorization, go to www.glasscraft.com in the Warranty information link. Then download a Return Material Authorization Form (RMA). The RMA form must be completed with all of the pertinent information. Return the form via email to our After Sales Department with appropriate digital images attached. Processing of your request will begin once GlassCraft has all of the information. Products to be returned must be packaged in the original shipping/crating materials, and shipped upright on a pallet, or credit for the return will not be given. A 15% restocking charge may be charged on returned products, depending upon the specific product. Custom product sales are final, and may not be returned.

Our return policy allows customers to return (after authorization from GlassCraft) any standard, stock product (excluding custom products, prehangs, or prefinished products) for any reason within 30 days of the customers receipt of the original shipment from GlassCraft. We will charge a 15% restocking charge. The customer must return the product in perfect, new condition and pack the shipment in the original GlassCraft packaging, and return the shipment freight pre-paid to GlassCraft. If, upon receipt, the product shows any damage or use, then GlassCraft reserves the right to not issue any credit for the returned merchandise.

Please note that a Return Authorization Number is valid for 30 calendar days from the date of issuance, and that the product must be received by GlassCraft within this 30 day period.

Freight Program

Our 2011 Freight Program allows customers to calculate their exact delivered cost on most products. This freight program supercedes any previous freight program. GlassCraft may pay for part or all of the freight costs, depending upon the value of the order and the location of the customer. GlassCraft does not charge for pallets or crating for standard-sized doors or entryways. (Very large custom entryways will have a crating fee added to the order). Please note that these charges may change at any time without prior notice due to unforeseen changes in fuel and freight costs.

state	zone	state	zone	state	zone

To determine your exact delivered costs, calculate the total number of order "units" contained on your order to be shipped at one time. (Please refer to the definition of a "unit" below). Next, determine your location "zone" by referring to the chart above. Use the "Freight Costs" chart below to determine your exact delivered freight cost. Customers may send multiple Purchase Orders to increase their "unit" total, but they must be faxed at the same time, and these purchase orders will be combined on one GlassCraft shipment and invoice. Shipments will be packaged as efficiently as possible and shipped on the carrier of GlassCraft's choice.

A "unit" is an individual door, or sidelite, or transom. A unit is also a jamb kit, or a prehung entry frame. Lastly, a unit is any combination of components, glass panels, wrought iron grilles, etc. that total \$500. As an example, an order for 3 slab doors, 2 sidelites, and \$550 in loose jamb legs would equal 6 units. Or a prehung unit consisting of 1 door, 2 sidelites, 1 transom plus the prehang frame would equal 5 units.

For example, if you were shipping 3 slab doors, 2 sidelite and \$550 of jamb legs to Orlando (zone 4), then your total freight costs would be \$445.00 (6 total "units": \$170 for the first unit, plus 5 units X \$40 or \$200, plus 3 assembled charges for shipping the pre-hung unit/assembled 3(2 doors + 1 frame) 3 units X \$25 = \$75. The cost would be \$370.00 if the pre -hung entry unit were shipped K-D

Prehung doors and entryways are completely assembled, and are shipped unassembled or assembled. **If you want your prehung entry shipped fully assembled, an extra charge will be added to your order if you order less than 12 assembled prehung "units". This extra charge applies to all shipments, including Freight Paid shipments.** Prehung entryways that are NOT shipped assembled will be knocked-down, boxed, and will be ready for re-assembly. Example: a fully assembled prehung double door entryway will count as 3 shipping units. (2 doors + 1 frame). If shipped to a zone 5 customer, a charge of \$90 (\$30 x 3 units) will be added, regardless of the total number of shipping units on the individual shipment. **(Unassembled "KD" prehung units are shipped at no additional charge).**

All shipments are available for "will call" shipment at our factory. In addition shipments, at the direction of the customer, may be shipped "Freight Collect" for freight payment by the customer. A Crating and Pallet charge may apply to these freight collect

or will-call shipments of \$50 per crate for slab doors and components (#CRATEDR), and \$80 per crate for each pre-hung unit (#CRATEPH).

Freight Costs	1 unit (base price)	each additional unit	Freight Paid at this unit quantity	extra per unit for assembled prehung shipments*
zone 1	\$50	\$15	10 units	no extra charge
zone 2	\$110	\$20	15 units	\$15
zone 3	\$150	\$30	20 units	\$20
zone 4	\$170	\$40	25 units	\$25
zone 5	\$180	\$45	30 units	\$30
zone 6	\$190	\$55	35 units	\$35
zone 7	\$240	\$70	40 units	\$40
zone 8	\$275	\$80	45 units	\$45

* as stated above, this extra charge is waived for shipments of 12 assembled prehung "units" or more, shipped at one time to one customer. Buffalo Forge Iron doors are ONLY shipped assembled.

Prefinishing Pricing ...

All of the entryways in this catalog are available professionally finished in the wide variety of color options shown on page 11 of the catalog. Two different finish options are available. The Traditional Finish provides a finish top coat that allows the natural graining of the wood to enhance the appearance. This is our most popular finish option. And our Distressed Finish offers a beautiful distressed wood finish appearance, simulating an old antique finish. A very attractive option to Mahogany and Knotty Alder doors. Suggested retail pricing for both of these finishing options is shown below for each entry configuration. Please refer to our **Information and Product Guide** for more information on finishing. Prices shown are retail list prices.

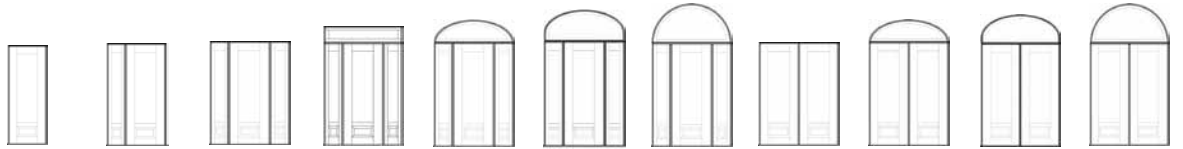

Traditional Finish

<i>number</i>	<i>item to finish</i>	<i>retail price</i>
FIN1-1	single 6-8 door	\$375
FIN1-2	single 8-0 door	\$400

Prehung Unit Information - rough openings and design pressures...

The chart below lists rough opening dimensions and “DP” design pressure ratings for all of our standard “inswing” entryway configurations. Most of these entryway configurations have been approved by state regulatory entities for use in windstorm areas. Note that the “rough opening size” listed below is a “tight” size, and is for reference only. Your installer may wish to add to these rough opening sizes. It is important to measure your prehung entryway unit upon arrival at the jobsite, and to construct the opening to fit the individual entryway unit. “Inswing” and “outswing” units have the same rough opening size.

The DP ratings shown apply to entryways which use our Estancia doors, our Portobello doors, and our TDL doors. These ratings do NOT apply to our Legacy Series mahogany entryways, or door slabs of any series. Our Buffalo Forge Series entryways and our decorative Steel Inserts have also been approved...please refer to our web site at www.gcdoor.com for more information on these two products.

In the chart below, “N/A” means that the product is not available OR the product configuration has not been tested for a DP Rating. For the most up-to-date information and test results for “outswing” entryways, please check your state regulatory website and/or our GlassCraft company website at www.gcdoor.com.
