

Freight Program

Our 2018 Freight Program allows customers to calculate their exact delivered cost on most products. This freight program supersedes any previous freight program. GlassCraft may pay for some or all of the freight costs, depending upon the value of the order and the location of the customer. GlassCraft does not charge for pallets or crating for standard-sized doors or entryways. Please note that these charges may change at any time without prior notice due to unforeseen changes in fuel and freight costs.

To calculate your freight cost, determine your location "zone" by referring to the chart above. Then use the "Freight Costs" chart below to determine your exact delivered freight cost. Freight charge depends upon the net dollar amount of your order. For orders totalling less than \$1,500, you pay a flat fee as noted in the second column in this chart. For orders above \$1,500, you pay a percentage of your order total (unless you are in Zone 1, as noted).

GlassCraft will pay all crating, pallet, and freight costs for net orders totaling the amount shown in column 4..."free freight level".

Customers may send multiple Purchase Orders to increase their dollar amount total, but they must be faxed or emailed together at one time, and these purchase orders will be combined on one GlassCraft shipment and invoice.

Shipments will be packaged as efficiently as possible and shipped on the carrier of GlassCraft's choice. If you have specific packaging requirements, please let us know, and we will attempt to accommodate. There may be an extra charge, depending upon your packaging requirements.

Pre-hung doors and entryways are completely assembled, and then are usually shipped with the doors separate from the assembled door frame. (There is no longer an extra charge for shipping assembled pre-hung door frames). Pre-hung entryway frames that are NOT shipped assembled will be knocked-down, and will be ready for re-assembly. We will do this upon customer request only.

All shipments are available for "will call" shipment at our factory.

Shipments (at the direction of the customer) may be shipped "Freight Collect" for freight payment by the customer upon the carrier of the customer's choice. A Crating and Pallet charge will apply to these freight collect or will-call shipments of \$65 per crate for slab doors and components (#CRATEDR), and \$75 per crate for each pre-hung unit (#CRATEPH). (One crate will hold up to 6 doors).
